

About Us

Vidhyarthi Darpan is an educational portal. It is a single platform on which all education entities are linked together i.e. schools, colleges, coaching institutes, universities, etc. We provide one-stop solution for management of students, faculty, and administration. We make it easier for the administration to manage the education institute and parents to track their child's progress. We help the educational institutes to digitalize themselves.

OUR VISION

All the educational institutes (Private, Government) should become digitally capable to manage themselves and run their institutes smoothly.

OUR MISSION

Vidhyarthi Darpan has a mission of transforming the education system via digitalizing the institutes in managing their student's and staff's data. Vidhyarthi Darpan aims to bridge the gap between students/parents and educational institutes.
